Our Strategy

Our strategy is based on the most current research in the fields of medicine, psychology, and social work.

WE PROVIDE MEDICAL SUPPORT

You will have full access to our medical staff for MAT and medical needs

WE CREATE AN INDIVIDUALIZED PLAN

Together, we focus on your goals for treatment and recovery. We develop a treatment model that meets your needs. The plan consists of individual and group therapy, participation in self-help meetings, and ongoing medical appointments.

Referring a Patient?

Thank you for considering us as you refer your patient for outpatient services! We can work with most individuals' team health plans. We accept all major insurance plans, including most private and union plans

Our Treatment team works closely with our referral sources to provide the best care for the client and to ensure continued success.
